Lutheran Children's Hospital and Easterseals Arc of Northeast Indiana are entering their 11th year working in tandem to offer fun workshops for brothers and sisters of children with disabilities and/or special health concerns.

Sibshops:

- are for kids ages 7 – high school seniors who have a brother or sister with disabilities/special health concerns.
- provide siblings of children with special needs an opportunity to meet other kids like them in a relaxed setting, discuss common joys and concerns, find out how others handle similar situations and learn more about their sibling's special needs.
- strengthen families by shining the spotlight on siblings, encouraging them to interact with and support their peers while learning ways to deal with the challenges they face regularly.
- are held at Mad Anthony's Children's Hope House, on the Lutheran Hospital Campus
